

3M™ Disposable Protective Oversleeve 444(ONE SIZE) 150 Pairs/Case

3M Product Number 444

The 3M™ Disposable Protective Oversleeves 444 are disposable sleeve covers designed to provide basic barrier protection to help protect the wearer's arms against light liquid splashes and hazardous dusts.

Benefits

- Elastic around top and bottom of sleeve for secure fit
- Anti-static treated
- Tapered design to ensure proper user fit

Overview

Suggested Applications

General Maintenance, Electronics Manufacturing, Catering, Clean Rooms, Beauty Industries, Hygiene, Laboratories.

The 3M™ Oversleeves 444 are a reliable, disposable accessory designed to help protect arms against light liquid splashes and hazardous dusts. Offered as an accessory, the oversleeves are made from a microporous laminate material with anti-static treatment. The oversleeves have elastic at the top and bottom of the sleeve to help ensure a good fit.
